

# Sergio Sa Filho

Project Manager | Software Engineer  
Accenture at Google

## EXPERIENCE

### **Accenture @ Google** (Mountain View, CA, USA) *Project Manager - Software Engineer*

JUNE 2017 - PRESENT

- > Working with stakeholders on requirements gathering. Creating user stories, budget requirement, resource estimation, sprint planning/executing and revising project plan when appropriate to meet changing needs/requirements.
- > Designed and implemented a Java API to handle RPC calls and store the information in a specific database.
- > Designed and implemented a Data Pipeline to improve survey campaigns by crossing data from an external client (API Call) saving the data in a specific database and create a file to be used by the email service.
- > Responsible for the project plan, design, consulting with client, writing code, assigning tasks, solving technical issues, testing products and writing proposals.
- > Lead a group of developers which includes daily standups, presentations to stakeholders, dashboards, reviews of code and unit test.
- > Handled recruitment, training and performance review.
- > Received multiple Exceptional Achievement Awards for consistently showing leadership and meeting deadlines during challenging situations.

### **Accenture** (San Francisco, CA, USA) *Project Manager - Senior Software Engineer*

APRIL 2017 - PRESENT

- > Gained client confidence by eliminating barriers and meeting a very aggressive deadline.
- > Secured multiple contracts with the client in excess of \$4M.
- > Promoted to Associate Manager in June 2018 for proactively leading different teams to deliver client requirements since January 2018.
- > Responsible for SoW, Change Orders and interviewing candidates to allocate personnel to projects and other tasks.
- > Main point of contact between the Client (Google) and Accenture Software Engineers. Responsible for code reviews, project compliance (e.g. security, privacy, documentation, etc) and ensuring the efficient development of the project.

## TECH SKILLS

Java, C, C++, SQL, RPC  
RestFUL API, Protocol Buffer  
Flume, Data Pipeline  
Web Service, Hibernate  
Spanner, Unit Test...

## SUMMARY

- > Strong leader
- > Effective communicator
- > Highly motivated
- > Problem solver
- > Perceptive
- > Decisive
- > Strong Character

## LANGUAGES

- > Portuguese pt-BR (native)
- > English (fluent)
- > Spanish (basic)

## **Build Group Inc** (San Francisco, CA, USA)

### *Software Architect*

SEPTEMBER 2014 - AUGUST 2016

> Developed the Build Group Portal that includes the Warranty, Project Management and other features for administration purposes. Technologies used: Java, Glassfish, Primefaces, Hibernate, PostgreSQL, Amazon Web Services (AWS includes: Elastic Beanstalk, S3, RDS, EC2, CodeCommit, CodeDeploy and Administration and Security Management for Users and Network Security) and AWS SDK (to integrate the Portal with the AWS).

> Determined project specifications by studying product design, customer requirements and performance standards; completing technical studies; preparing cost estimates.

## **Hewlett Packard** (Porto Alegre, RS, BR)

### *Software Engineer*

JULY 2012 - FEBRUARY 2014

> Team Leader responsible for project planning, consulting with client, writing code, assigning tasks, solving technical issues, testing products and code review.

> Designed and developed Android applications for the R&D area.

> Developed and supported a live user application to support requests (Web Service) from clients (Android, iOS and Win8) using Java, MySQL and others languages and tools.

> Designed and programmed a Web Service communication tool to interface between Clients and Cloud services such as Box, DropBox, SkyDrive, Facebook and SnapFish.
